Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 December 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10 and 17-23, drawn to a stereoscopic display apparatus, classified in class 345, subclass 1.1 (i.e. plural visual display units working in tandem).
 - II. Claims 11-16, drawn to a process of producing a stereoscopic image, classified in class 348, subclass 47 (i.e. deriving a stereoscopic picture signal via at least two picture signal generators).

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed (in Invention II, claims 11-16) can be practiced by another materially different apparatus (than Invention I, claims 1-10 and 17-23), such as producing a stereoscopic image of a scene for use with a motion picture system (as opposed to the aerial refueling system of Invention I); or producing a stereoscopic image of a scene without using Invention I's plurality of cameras and left/right eyepiece-type display modules. Furthermore, the apparatus as claimed (in Invention I, claims 1-10 and 17-23) can be used to practice another materially different process

(than Invention II, claims 11-16) such as presenting a stereoscopic image without relying upon a mid-window to prevent frame violations.

3. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
